

**Receiver Update**  
**September 6, 2024**

With the finalization of the sale agreement with Northwest Colorado Health, our attention and efforts now shift to managing a smooth transition. A transition of this size and complexity in just a few short weeks is challenging and we are committed to doing everything we can to make sure Casey's Pond residents and team members are minimally impacted during this time. We recognize these past few months have been stressful and traumatic for many and are grateful we are entering a period where residents and team members can experience some stability.

We are thrilled to work with Northwest Colorado Health as the buyer of Casey's Pond and want to pass along a short note from their CEO to our community. You will be hearing and seeing more from them in the coming weeks.

**Cordes & Company**

Dear Casey's Pond Community,

Northwest Colorado Health is honored to have the opportunity to support the critical care that Casey's Pond provides in the Yampa Valley.

We have a lot to get done in the coming days, weeks, and months and I want to assure you that stabilization for residents, families and staff is the main priority during this transition. We are working with the Receiver, Cappella, State of Colorado, and other community partners to ensure a smooth transition.

I would love to highlight the importance of continuing to choose to live here as a resident, supporting your loved one in living here, and remaining an employee here to help Casey's Pond stabilize and foster much-needed growth for the community.

We are humbled by the tremendous community support that has made this purchase possible and we are doing everything in our power to limit the impact of this transition on each of you. I look forward to providing timely updates as they become available, and I look forward to meeting you all soon.

Stephanie Einfeld, CEO  
Northwest Colorado Health
